

Standard Exterior Door Warranty:

Harring Doors will provide a **3 year warranty** on an exterior door provided that we **factory finish** the product and the door is within the following guidelines. **Harring Doors will not, under any circumstances, warranty an exterior door that is not finished at our facility.**

- Maximum door size - 42" x 96"
- Minimum size for stiles and top rail, no less than 5 (over 36" wide 5 1/2")
- Minimum size for bottom rail, no less than 10". (over 36" wide 12")
- Dual species at the exterior will not carry a warranty.
- Job site fitting will not be permitted
- Outswing doors require metal flashing at top.
- Exterior caulk must be used on lites and hardware
- An overhang of four feet must be maintained from face and edge of door.
- Prolonged exposure to extreme climatic conditions - heat, sunlight, moisture etc., may limit your warranty.
- Concealed Vertical Rods will void any warranty.
- Periodic touch up on the finish is required to maintain exterior doors.
- The following standard species are recommended for **EXTERIOR** use and will be warranted.

American Black Cherry	Eastern White Pine	American Black Walnut
White Oak	African Mahogany	

Due to the expansion and contraction of the wood, it is preferred to have the cut of the above woods on the quarter, this will help in the stability of the grain.

Note: the use of Red Oak to the exterior will not be warranted in any event. Any plank door shall have a laminated face with grooves machined in.
